

I oppose modification of Indianas' do no call list. Households are entitled to peace and quiet. It is appropriate for Banks and other business entities to write, or with permission e-mail. It is inappropriate to allow them to intitiate a business call on their schedule. Before the "do not call" list, my household was called on a nightly basis by some telemarketer or pollster, from selling garbage bags for the police to insurance solicitation. They enactment of "do not call" has increased the quality of our lives.
